A favicon is a small image displayed next to the page title in the browser tab

Digital MFPs / Printers

How To Add a Favicon in HTML

You can use any image you like as your favicon. You can also create your own favicon on sites like <https://favicon.cc>.

Next, add a `<link>` element to your "index.html" file, after the `<title>` element, like this:

Example

```
<!DOCTYPE html>
<html>

<head>
  <title>My Page Title</title>
  <link rel="icon" type="image/x-icon" href="/images/favicon.ico">
</head>

<body>

  <h1>This is a Heading</h1>
  <p>This is a paragraph.</p>

</body>
```

```
</html>
```
